# Chapter 1

## Functional ecology

### 1.1 Introduction

Yoon and Brimblecombe 2002 is wrong (Smith et al. 2009).

## 1.2 Methods

Only included species seen on more than 5% of surveys.

$\ln(x)$ -transformed morphological data.

## **1.3 Results**

Using R version R version 3.3.0 to do all this fancy stuff.

## 1.4 Discussion
